WORK EXPERIENCE

ROSS MCKINLEY LTD – REMOTE, UNITED KINGDOM

FULL STACK DEVELOPER – 20/11/2024 – CURRENT

- Developed and implemented critical company tax features, including **VAT, corporation tax, company accounts, confirmation statements, CIS, and pension modules**, ensuring compliance with regulatory standards and enhancing operational efficiency.
- Configured and maintained automated **cron jobs** using task scheduling tools, ensuring timely execution of critical processes and minimizing manual intervention.
- Authored comprehensive **unit tests** using industry best practices, achieving high code coverage and improving software reliability while reducing post-deployment defects.

PIXAKO TECHNOLOGIES PVT. LTD – ISLAMABAD, PAKISTAN

PHP DEVELOPER – 14/06/2022 – 31/10/2024

- Reviewed and analyzed existing application functionalities to identify performance improvement opportunities and optimize user experience.
- Identified, documented, and prioritized software defects; implemented fixes to ensure system stability and compliance with SLAs.
- Conducted root cause analysis and executed debugging processes using PHP, and related tools to resolve critical issues.
- Collaborated with cross-functional teams (designers, QA, and product managers) to plan, design, and develop new modules based on client requirements.
- Performed unit testing to validate new features and ensure code quality according to best practices.
- Provided technical support, code reviews, and mentorship to team members, improving team efficiency and code maintainability.
- Prepared and delivered regular progress reports to stakeholders, ensuring transparency, alignment, and timely delivery of project milestones.

HUMANITY PUBLICATIONS PVT. LTD – ISLAMABAD, PAKISTAN

PHP DEVELOPER – 10/12/2020 – 13/06/2022

- Designed and developed new software modules to expand application functionality and meet evolving client needs.
- Implemented feature enhancements driven by user feedback and business requirements, ensuring alignment with product goals.
- Collaborated with cross-functional teams to optimize and enhance existing PHP/Laravel-based software products, improving performance and maintainability.
- Delivered robust, scalable, and maintainable code following industry best practices, version control workflows, and code review processes.
